## HOME DEPARTMENT OF THE FARM BUREAU.

By Geneva Rankin.

### Hot Lunch Clubs

This is the time of year we begin to think of something warm for lunch. What about the kiddies that take a piece of cold pie and a cold sandwich to school? One hot dish to eat with the cold lunch will make your boy, your girl, more healthful and more able to come with the school work of the day.

One of the most useful projects of club work is the hot lunch in schools. This is conducted at school during the winter with the teacher as a local leader. The children of club age are enrolled as active members. Boys are enrolled the same as girls. Only a very simple equipment is required. Sometimes this is owned by the school or borrowed for the winter months from the home. Older boys often can make a cupboard and other simple equipment.

**BEFORE**  
Pa warms the milk for the little calf, Ma heats the food for the chicks. They eat a hot dinner at noontime too.

**AFTER**  
We have a good lunch at our school now.  
Cocoa and soup as hot as the Dickens.

We fill up our cups as we pass along. They've decided now we're as good as the chickens.

The millinery school at Dakota City, under the leadership of Mrs. S. A. Mason, Mrs. M. G. Leamer and Mrs. Walter Miller, has completed its course of instruction in a very creditable manner. The leaders have spent a great deal of time and effort in passing this work that was given them at the Dakota county millinery school and the members all feel grateful for their help.

The county home agent wishes to thank all millinery and dress form project leaders for the way they have co-operated with her and extended the work to other women in their communities. This is the true spirit of extension work and shows how work can develop in progressive, wide-awake communities.

## THE NEAR EAST RELIEF.

What is the Near East Relief? So much has been written of this great charitable institution which is doing so much to save the starving remnant of Armenia and others of the Near East that it hardly seems necessary to comment on it here. Suffice to say, it is an organization, authorized by our United States congress to solicit foodstuffs for the Near East sufferers. Its books are each year audited by that body and its work at all times carefully guarded by them to make sure that it is serving the purpose for which it was created.

Not only is the Near East Relief safeguarded by congress but it has the endorsement of such organizations as the American Farm Bureau Federation, Farmers' union, Farmers' Equity Union, United States Grain Growers Inc., American Federation of Labor, and numerous others; and such men as Governor McKelvie;

Leo Stubr, secretary, state department of agriculture; C. H. Gustafson, national president of United States Grain Growers Inc., and others.

That it has a wide field for usefulness none who read can at all question. From the beginning of the world war until last April, Armenia was overrun by the Turks or the country was held by them. All of the strong men were killed, either in war or by the incoming hordes. The women were in a large part sold as slaves, while many thousands of others perished together with their children. But all of this has left thousands upon thousands of helpless children, as many as 20,000 in a single city.

For years these people have been the victims of their Mohammedan neighbors, because they will not give up their religion. Torture of the worst kind they have undergone, because of their faith in the living God. Now the call comes to us through the Near East Relief to help the children of this truly wonderful people. We feel sure that our people will come to their rescue.

Corn is the thing asked for in the campaign which is being instituted in Dakota county during November. Details of the campaign will be published next week. We ask that everyone learn all they can of this crying need that they may be ready to give when the time comes.

C. R. YOUNG  
Assistant County Chairman.

## "ROLL CALL" LED BY MR. D. M. NEISWANGER, OF RED CROSS

Red Cross membership enrollment in the coming Roll Call which opens on November 11—Armistice Day—and continues until Thanksgiving, November 27, will be in charge of Mr. D. M. Neiswanger of Dakota County Chapter. Acceptance of this important post has just been sent to Chicago headquarters of the Central Division, of which this is a part.

Local support of the Red Cross is expected not only to reach but surpass that of this past year, since the organization is not only equipped to function in community work, here but is called upon to act in national emergencies and disasters. The recent calls upon the Red Cross in the Pueblo and San Antonio floods as well as the obligations it is still discharging toward disabled ex-service men, place the responsibility for these humanitarian undertakings upon the shoulders of every person with "the heart and the dollar".

During the past month, the numbers of new soldier cases needing care and treatment have been brought to public attention and through the work of the "Clean Up" Squads a realization of the importance of work the Red Cross is doing for service men the country over has been increasingly manifest. That more than \$10,000,000 has been expended in this work by the national organization within the year proves the need for its continued support.

Under the new arrangement all funds remain with the local chapters for support of its present activities with the exception of fifty cents from each annual, contributing or sustaining membership. These funds go to support disaster relief, soldier work and other projects.

Plans for Roll Call activities here will be announced shortly.

week. She had been in delicate health for some time but was sick but a short time, prior to her death. She was born in Canada, September 6, 1841. She was united in marriage to Patrick Dorsey at Lucan, Ontario, and with her husband and family came to Emerson in 1896. Ten children were born to Mr. and Mrs. Dorsey, four having preceded her in death. Besides her husband, she is survived by six children, Mrs. Kiley, Pat Dorsey, of Pender, Mrs. McDunn, Steve John and Margaret, the latter two being at home. The funeral services were conducted from Sacred Heart church by Father Burke, assisted by Father Quinn, of Bancroft, and Father Collins, of Laurel, last Friday morning. Requiem High Mass being solemnized. The remains were laid to rest in the catholic cemetery.

to say that Mrs. Graham has done fine work in visiting us often. I wish that all parents would show such interest. Then Dakota City would have the real school spirit and a real school.

Miss Ellen Brown, county superintendent of Thurston county, was a visitor at the high school Monday. Miss Brown was a student of ours at Fremont college a short time ago. We are pleased to have these outside missionaries call on us.

Tardiness is a mark of laxness in educational ethics. No pupil has a right to be late. Think of the time it takes from others as well as those late. Why not "cut it out"?

An education should be of such a nature as to enable a person to solve the problems of life that come to one unexpectedly.

## Farm Bureau Field Notes

C. R. Young, County Agent

Hog cholera continues to spread. New cases are on the John Walsh farm west of Willis, and the Henry Schroeder and Fred Wilkins farms west of Homer. Many farmers are now taking the precaution to vaccinate their hogs as a preventative means. This seems to be the only course left to follow if the hogs are to be saved and the disease stamped out. Those having sick hogs should call at once some one qualified to diagnose the case so as to determine the trouble. During the past two weeks three herds have been brought to my attention which were too far gone to save by vaccination. In all of these the owners thought that their hogs were suffering from some minor ailment and did not discover the mistake until the entire herd was infected. On most farms the hog crop is the only way out of the financial troubles. Why not insure this one profitable industry? It is time that these remarks apply more to certain parts of the county than others, but at the rate the disease is spreading it may yet reach all.

## M. E. Church Notes

Rev. E. C. Moore, Pastor

Notwithstanding the rainy weather there was a good attendance at all the church services last Sunday. Possibly the rain helped, as it made it more difficult to attend the Sunday meetings in Sioux City. We are sorry for the disappointment of any who had planned to go there, but were glad to welcome so many here.

The pastor attended a ministerial meeting in Sioux City Monday.

The Hallowe'en social in the church basement Monday evening was well attended, and a highly enjoyable affair. Even before the time announced a number of youthful frolicers were gathering outside the church, impatient for the doors to be thrown open for their admission. After a short program of readings and music appropriate for the occasion, all had opportunity to join in some sort of games which had been arranged for the entertainment of young and old. We think anyone passing within a considerable distance of the church could have heard the evidence of a high degree of enjoyment, from those who were there. After an hour of games and contests, refreshments were served, and while there were far less than five thousand present, there were surely not twelve baskets full of fragments remaining. Much credit is due to the lady Sunday School teachers, who arranged the decorations, and worked to make it a pleasant evening for all.

Mrs. Moore was on the sick list for a day last week.

The Ladies Aid Society will meet with Mrs. Doris Forbes Friday.

Don't forget the entertainment at the church Friday evening. Miss Dyer, a reader from Nebraska Wesleyan University, will present Booth Tarkington's "Seventeen." Admission 35c and 15c.

And remember to plan for the services of the church next Sunday at the usual hours. If necessary, let "Big Ben" help you to Sunday School.

## DAKOTA CITY SCHOOL NOTES

By Prof. H. M. Eaton

Norel McPherson has entered the 4th grade. He comes here from rural district No. 30.

Examinations are the order of the week throughout the entire school. We hope to have the cards sent to the parents by the close of the week. We would be pleased to have each look over the grade of each child and show an active interest in the work being done. Any question will be cheerfully answered as to the conduct and work of any pupil in the school.

Visitors this week: Mrs. J. T. Graham, Mrs. C. R. Young, W. H. Berger. A pretty good list. We wish
